THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
 - (a) Any single contract with imported content exceeding US\$10 million.
or
 - (b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million.
or
 - (c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.
or
 - (d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a *pro-rata* basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.

- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

- 2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of R10 million (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

- 2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

- 3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

- 3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.

This sum shall legally be deemed a debt due by the Contractor to the Employer and shall be recoverable accordingly; provided that, should the Contractor on demand not pay the amount of such excess to the Employer, such sum may be determined and deducted by the Employer from any sum due to or that may become due to the Contractor under this or any previous or subsequent contract

WORKS ON ROADS IMPLEMENTED THROUGH IN HOUSE CONSTRUCTION TEAMS FOR A PERIOD
OF 36 MONTHS**

C2.1: PRICING INSTRUCTIONS

- C2.1.1 For the purposes of this Bill of Quantities, the following words shall have the meanings hereby assigned to them.
- | | |
|-----------|--|
| Unit: | The unit of measurement for each item of work as defined in the Standard Specifications or the Project Specifications. |
| Quantity: | The number of units of work for each item. |
| Rate: | The payment per unit of work for which the Tenderer tenders to do the work. |
| Amount: | The product of the quantity and the rate tender for an item. |
| Lump Sum: | An amount tender for an item, the extent of which is described in the Bill of Quantities, the Specifications or elsewhere, but of which the quantity of work is not measured in units. |
- C2.1.2 This Bill of Quantities forms part of the contract documents and must be read in conjunction with all the other documents comprising the contract documents.
- C2.1.3 The quantities set out in the Bill of Quantities are **only for the purpose of reducing tenders to a comparable basis for evaluation**. The quantities of work finally accepted and certified for payment, and not the quantities given in the Bill of Quantities, will be used to determine payments to the Contractor. **Each works assignment will be quantified and compiled on an “ad-hoc” basis**, and works will be set out accordingly.
- The validity of the contract shall in no way be affected by differences between the quantities in the Bill of Quantities and the quantities finally certified for payment.** Work is valued at the rates or lump sums tender, subject only to the provisions of subclause 1209 (a) of the Standard Specifications.
- C2.1.4 Rates and lump sums shall include full compensation for overheads, profits, incidentals, all taxes (other than VAT), etc. and for the completed items of work as specified, all in accordance with sub-clause 1209 (b) of the Standard Specifications. Full compensation for completing and maintaining, during the defects liability period, all the work shown on the drawings and specified in the Standard Specifications and Project Specifications and for all the risks, obligations and responsibilities specified in the General Conditions of Contract, Special Conditions of Contract, Standard Specifications and Project Specifications shall be considered as provided for collectively in the items of payment given in the Bill of Quantities, except in so far as the **quantities given in the Bill of Quantities are only intended to reduce the tenders to a comparative basis for evaluation purposes**.
- C2.1.5 Materials contained in the payment items included in the Schedule of Quantities, labelled with the prefix **“ECB”** (East Cape Buy) must be procured within the boundaries of the Eastern Cape.

- C2.1.6 The Tenderer shall fill in a rate or a lump sum for each item where provision is made for it even where no quantities are given. Items against which no rate or lump sum has been entered in the tender will not be paid for when the work is executed, as payment for such work will be regarded as being covered by other rates or lump sums in the Bill of Quantities.

The Tenderer shall fill in a rate against all items where the words “rate only” appear in the amount column. Although no work is foreseen under such item and no quantities are consequently given in the quantity column, the tender rate shall apply should work under this item actually become required. Tenderers should note the provisions of paragraph 14 of this preamble.

If the Tenderer should group a number of items together and tender one lump sum for each group of items, this single tender lump sum shall apply to that group of items and not to each individual item, or should he indicate that full compensation for any item has been included in the rate for another item, the rate for the item included in another item shall be deemed to be nil.

The tender lump sums and rates shall be valid irrespective of any change in the quantities during the execution of the contract. (Refer to Contract Data clause 6.11.1.3 on page C1.13).

- C2.1.7 The works executed are measured for payment in accordance with the methods described in the contract documents under the various payment items, notwithstanding any custom to the contrary. Attention is directed to the provisions of Clause 1220 of the Standard Specifications regarding the measurements of quantities for payment. Except where specified otherwise than in Clause 1220, the nett measurement or mass of the finished work in place shall be taken for payment, and any volume or mass of work in excess of that prescribed, shall be excluded.
- C2.1.8 The amount of work or the quantities of material stated in the Bill of Quantities **shall not be considered as restricting or extending** the amount of work to be done or quantity of material to be supplied by the Contractor.
- C2.1.9 The statement of quantities of material or the amount of work in the Bill of Quantities shall not be regarded as authorisation for the Contractor to order material or to execute work. The Contractor shall obtain the Engineer’s detailed instructions indicating applicable payment item(s) for all work before ordering any materials or executing work or making arrangements in this regard.
- C2.1.10 The short descriptions of the payment items in the Bill of Quantities are only given to identify the items and to provide specific details. Reference shall, inter alia, be made to the drawings, COLTO Standard Specifications for Road and Bridge Works for State Road Authorities, Project Specifications, General Conditions of Contract and Special Conditions of Contract for more detailed information regarding the extent of work entailed under each item.
- C2.1.11 The provisions of Clause 6.6 of the General Conditions of Contract shall apply to provisional sums and prime cost sums.
- C2.1.12 Subject to the conditions stated in paragraph C2.1.13 below, the rates and lump sums filled in by the Tenderer in the Bill of Quantities shall be final and binding with regard to submitting the tender and may not be adjusted should there be any mistakes in the extensions thereof and in the total sums appearing in the tender. Adjustment of the rates to minimise commercial risk will take place prior to the signing of the contract. In their own interest Tenderers must make doubly sure of the correctness of their tender rates, the extensions and the Tender Sum.
- Arithmetical errors of responsive tenders will be corrected as per CIDB Practice Note #2 (February 2008).
- C2.1.13 A tender may be rejected if the unit rates or lump sums for some of the items in the Bill of Quantities are, in the opinion of the Employer, unreasonable or out of proportion, and if the Tenderer fails, within a period of seven (7) days of having been notified in writing by the

Employer or the Employer's Agent to adjust the unit rates or lump sums for such items, to make such adjustments.

C2.1.15 All rates and sums of money quoted in the Bill of Quantities shall be in Rands and whole cents. Fractions of a cent shall be discarded.

C2.1.16 The item numbers appearing in the Bill of Quantities refer to the corresponding item numbers in the COLTO Standard Specifications for Road and Bridge Works for State Road Authorities. Item numbers prefixed by the letter B refer to payment items described under Part B of the Project Specifications, those with C to payment items described under Part C, and so on for further parts of the project specifications.

C2.1.17 **The extent of the works contained in the Bill of Quantities is only included to obtain responsive and competitive tenders for evaluation purposes.** The works will be set out on an "ad-hoc" basis per works assignment. The quantity of works allocated may not necessarily be equal to the value of works contained in the schedule of quantities in this Framework document.

The roads are being constructed by the Department of Transport's In-House Construction Team. To accelerate the delivery of the project, the Contractors shall be responsible for assisting the In-House Construction Unit (IHCU) in carrying out Ancillary Works, which should also assist to develop small and emerging Contractors.

For any work to be done on this contract, the Employer will issue quotations/BOQ to all successful bidders appointed in the Panel / Framework and only one will be awarded based on price and HDI points.

The IHCU shall issue the successful contractor with written Work Orders for all services and goods required before any delivery or rendering of any service. The contractor may, from time to time, also be required to cover costs related to labour, accommodation, repair of the department's plant and equipment as well as any other cost associated with the project. Where an order has been issued for the specific delivery of materials, plant, equipment and or services, these shall be delivered on site and at a location indicated by the employer or his agent within the agreed timeframe. It is also the intention of this contract for the contractor to carry out physical work (i.e., ancillary works, surfacing, layer-works, major & minor works, etc.) and/or manager SMMEs related to the project. However, should this be necessary, a works order will be issued for the specific work to be carried out. Any works order issued will, among other things, outline the scope of work to be carried out as well as the duration. The rates tendered by the contractor shall be used to compensate the contractor for any physical work carried out.

Over the three-year contract period, the Employer does not guarantee the number of work orders that will be issued nor the minimum total amount of work orders. This contract shall be for services to be rendered as and when required. Except where a specific order has been issued for physical work to be carried out on site and for the duration of that work order, no P&Gs shall be charged separately on a monthly basis and no staff will be required from the contractor to be stationed on site.

Where the contractor is issued with a specific work order to carry out any physical work, the contractor will be required to deliver the infrastructure using labour-intensive construction methods and using local SMME contractors wherever practical.

Requirements are introduced that certain construction activities must be carried out by hand in terms of the Expanded Public Works Programme (EPWP) and by SMME sub-contractors where practical.

Labour-Intensive Construction

The aim is to provide temporary employment opportunities for the communities in close proximity of the road by introducing labour-intensive construction methods on those items of the work that are suitable to be executed in this manner.

The description of the project contained in the Scope of Work is merely an outline of the Contract Works and shall not limit the work to be carried out by the Contractor under this Contract. Details of some of the major items are given in this section and approximately detailed quantities for each type of work to be carried out in accordance with the Contract Documents are included in the Bill of Quantities.

It is a condition of this contract that the employer reserves the right to limit the expenditure on the works due to possible budget constraints. Should the tender sum exceed the budgeted amount, the scope of the works may be reduced at any time, before or during the contract period, to ensure that the final contract amount does not exceed the budgeted amount.

Should these conditions be applied, such adjustments or limitations shall be deemed to be a variation of the form or quantity of the works or any part thereof in terms of clause 6.3 of the General Conditions of Contract. The validity of the tender, the individual rates or sums tendered shall not be influenced by any such adjustments or limitations and no claim will be considered on the basis of such adjustments or limitations in terms of clause 6.11 of the General Conditions of Contract.

The following sets out the proposed procedure that is to be followed when a Works assignment is required:

Works Assignment

Once contractors are awarded into the Framework, work assignments will be issued in packages. The maximum value of Work Assignments which can be awarded to any one contractor in terms of this agreement shall not exceed the maximum amount allowed per annum based on the Contractors CIDB Grading inclusive of VAT. Requests for quotations detailing scope of works will be issued to ALL contractors appointed in a Panel.

The RFQ's will provide an accurate scope of works with real quantities which will allow for more accurate pricing. Contractors may price lower than the originally tendered Framework rates but may not offer rates higher than those originally offered in this Framework Agreement. Work packages will be issued to the highest point scoring service provider. Additionally, whilst all service providers will be required to quote for every works package within the project, works packages will be awarded to the highest point scorer and on a rotation basis, meaning that works packages will be awarded to the highest point scorer who has not yet been awarded a works package in that round of rotation. Contract price Adjustment will be applicable to payment certificates (6.8.2)

Each specific works assignment shall be limited to a **maximum duration of 36 months**. On completion of the works assignment, the Contractor's Performance will be evaluated by the DMT consisting of the Director – IHC unit, Project Managers and Head of Supply Chain in IHC unit. Should the work have not been conducted to a satisfactory standard (within time, budget and to the required specifications) the Department shall have the right to decide not to award any further works assignments to the said contractor and remove said contractor from this Framework Appointment.

The Works will be undertaken in accordance with the relevant standard and project specifications, or as instructed by the Employers Agent. The Contractor is to commence work within 14 days of being instructed by the Director (In House Construction) or District Roads Engineer or such a time as agreed to in writing.

Should the Contractor not perform within the specified response and completion times or not conduct the said works with “due diligence”, penalties will be applied as set out in Section C3.3.2 and the Department shall have the right to decide not to award any further works assignments to the said contractor.
